Saturday Feb 12

We changed beds so I could fiddle with the AC - opened window + turned AC off - got stuffy after couple of hours - Spent morning in harbor waiting for various clearances -

Birds: frigate birds not many birds
gulls pelican

the Mariner moved west from Falmouth Harbor around the first point and Nilo is very nice beach for a bow landing. After beach-time to swim - Drion The ramp and out on the beach we go with towels hats etc. Here comes a rain cloud - and the rain! Many, including Joe scurried back to boat - Some including me stayed in water. Wonderful Wonderful blue-green swim! Walked the beach afterwards the Turkey Wing beach. Found the Tiniest hermit crab - Captains party - great food - and dinner watched "the scent of a woman" - so-so

Sunday Feb 13

Left our anchorage at Antigua about 3 am and rock & rolled all the way to Guadaloup about 7:30 and then on to Isles des Saintes about 11 am the first rough part I stayed in bed — the second after breakfast I stayed on the forward deck — and got really wet. But it was exciting! — {Roll #1 22 - end

Anchored in the harbor of Bourg des SAINTES 16°N 61°30'E beautiful harbor with village nestled amongst small steep hills. Taken into Town we walked to the right past the church and the city building. a lot of interesting details - window all open upstairs corrugated iron roofs, a certain relaxed attitudes about side walks, two-peds everywhere — we stopped at cafe Relais Marine & had {Roll #2 1 — 4
a delicious ice cream soda

Dominica Monday Feb 14

Another rock + roll morning -
5:30 - 8:30 - Stayed in bed + then went to breakfast at $9.15 ± Went on AM field trip - Rain Forest - bus about 30-45' through Town and up up + up and round + round + Fabulous - then 1½ hr walk through forest - Magnificent - Wonderful (no pictures - Too dark) the guide was excellent - native Dominica

St Lucia Wednesday Feb 16

Left mooring at 9am + bounced along until nearly 8. It POURED during the night and of course my window was open — this island looks like 100 volcanoes all fused together Roll #3 8-15

Skiffed to shore in the am near Pigeon Island Park. Walked over to North (Atlantic?) shore - much surf - walked back on Carib shore lots of coral, shells + pieces of trap rock moved ship to Soufriere during lunch Got a nap after lunch and then went off in 2 Toyota cabs to the Botanical Garden - privately owned estate planted, cared for in memory of parents by a daughter - beautiful with many familiar plants. thence to the Volcano - WOW! sulphurous gases rising from the floor - fascinating sight 3rd stop - another waterfall + smaller garden Best day so far — on the beach a fisherman was cutting up a TUNA for our cook — watched "You have Mail" in pm — funny

Bequia Thursday Feb 17

Arrived Bequia at breakfast time after a not too bad night (left soufriere at 2:30 am) Big harbor full of yachts - all kinds, all countries - went into Town - 2 big almond trees at the dock - walked down to book store - saw some interesting books, maps, etc but didn't buy anything - walked the other way to the end of the street to see model ships - hand-made, beautiful, large so detailed and expensive. Did side trip ramp on the sand a man was selling us a large tuna - turns out our chef had bought it - After lunch and a little nap I went to the beach for a swim - Joe did not he is still a little squeamish. Enjoyed swimming and then georgeana and I had some snorkelling - saw a few fish but mostly was glad to practice with mask Reflection dinner notebook "Sense + Sensibility

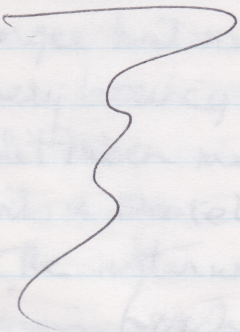
Tobago Keys Friday Feb 18

Slept very well until 7 am when the boat started - and I rushed to the head to throw up RATS - a little later the diarrhea started double RATS #1 faded away about 11 + the rest faded away mid afternoon. Slept most of the day, Joe brought me ginger ale - and about four I washed + dressed -



Tobago Keys Saturday Feb 19

somewhere between Bequia & Union

As we are still anchored in the same place as yesterday it was a peaceful night surrounded by many little curiously shaped islands and endless vistas of blue green aqua water I tried a little painting. Joe both went on the glass bottom boat - many corals & sponges but not many fish. The water is very bouncy here. I was sorry I hadn't taken my camera - many interesting boats & shorelines.

If you see an albatross or a frigate bird flying between the sea + the sky, you would think the world was basically shades of BLUE

Looking out an airplane window over the Caribbean Sea I can see nothing but BLUE
